Greetings

Thank you for connecting with Seekcode. We're excited to share our vision and explore how we can help bring your ideas to life.

Who We Are

Seekcode is a forward-thinking technology solutions provider dedicated to innovation, quality, and growth.

Founded with a mission to make a lasting impact in the tech industry, we're driven by a passion for creating transformative digital experiences and offering world-class software services.

Our team comprises skilled professionals in web and mobile development, UI/UX design, AI, and digital transformation, united by a commitment to excellence and continuous learning.

We don't just develop software; we build strategic partnerships that empower our clients to achieve their goals.

By focusing on personalized solutions and proactive support, we aim to help businesses thrive in an ever-evolving digital landscape.

At **Seekode**, we measure success by the value we bring to our clients, our team, and the communities we serve.

Why Choose Us?

At **Seekcode**, we go beyond delivering services—we build lasting partnerships.

Our approach to each project is rooted in understanding your unique business needs and creating solutions that bring measurable results.

With a blend of innovation, industry expertise, and client-focused care, we're dedicated to helping you achieve your goals and stay ahead in a dynamic digital world.

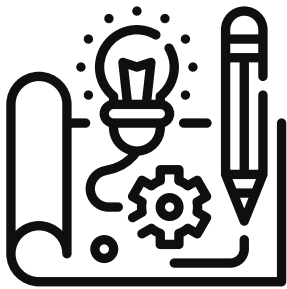

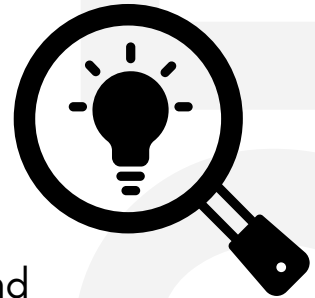

From initial consultation to final implementation and ongoing support, our team is here to ensure **your success** every step of the way.

Our Workflow

1 Discovery & Consultation

Understanding the client's needs, goals, and challenges to create a strategic project plan

2 Design & Prototyping

Our design team creates wireframes and mockups to visualize the project's structure and design.

3 Development

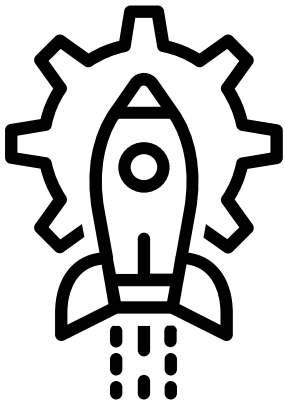

Our developers bring designs to life, ensuring high-quality code and optimal functionality

4

Testing & Quality Assurance

Rigorous testing to ensure stability, security, and performance across all platforms.

5

Deployment & Launch

Seamless deployment, training, and support to ensure a smooth transition.

6

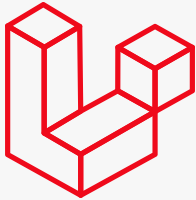

Ongoing Support

We provide maintenance and support to keep systems up-to-date and optimized.

Technologies We Use

At **Seekcode**, we leverage a modern tech stack to deliver innovative, high-performance solutions across diverse industries.

PROJECT HIGHLIGHTS

Dive into our featured projects that showcase our expertise and dedication to innovative solutions.

Each project represents our commitment to quality, from design to development and beyond.

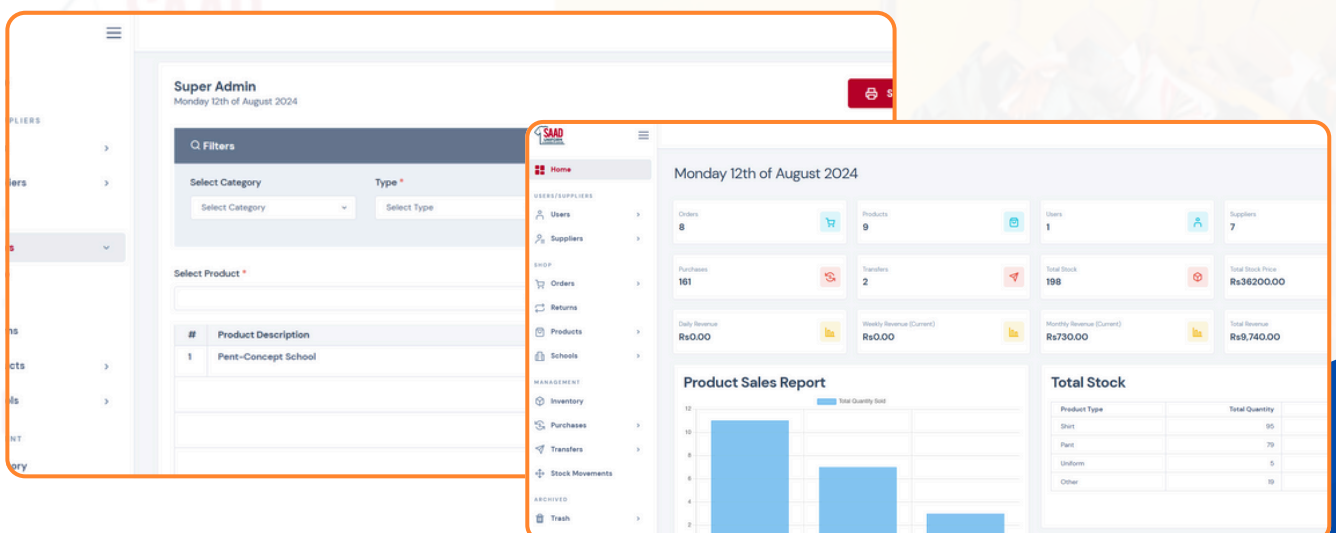

Garmex

Garments Management System

Garmex is an all-in-one **SaaS** solution for garment shops, simplifying **inventory tracking, stock movements, orders, returns, expenses, and invoicing**.

It streamlines operations, reduces manual work, and ensures accurate financial records, allowing businesses to focus on growth and customer satisfaction.

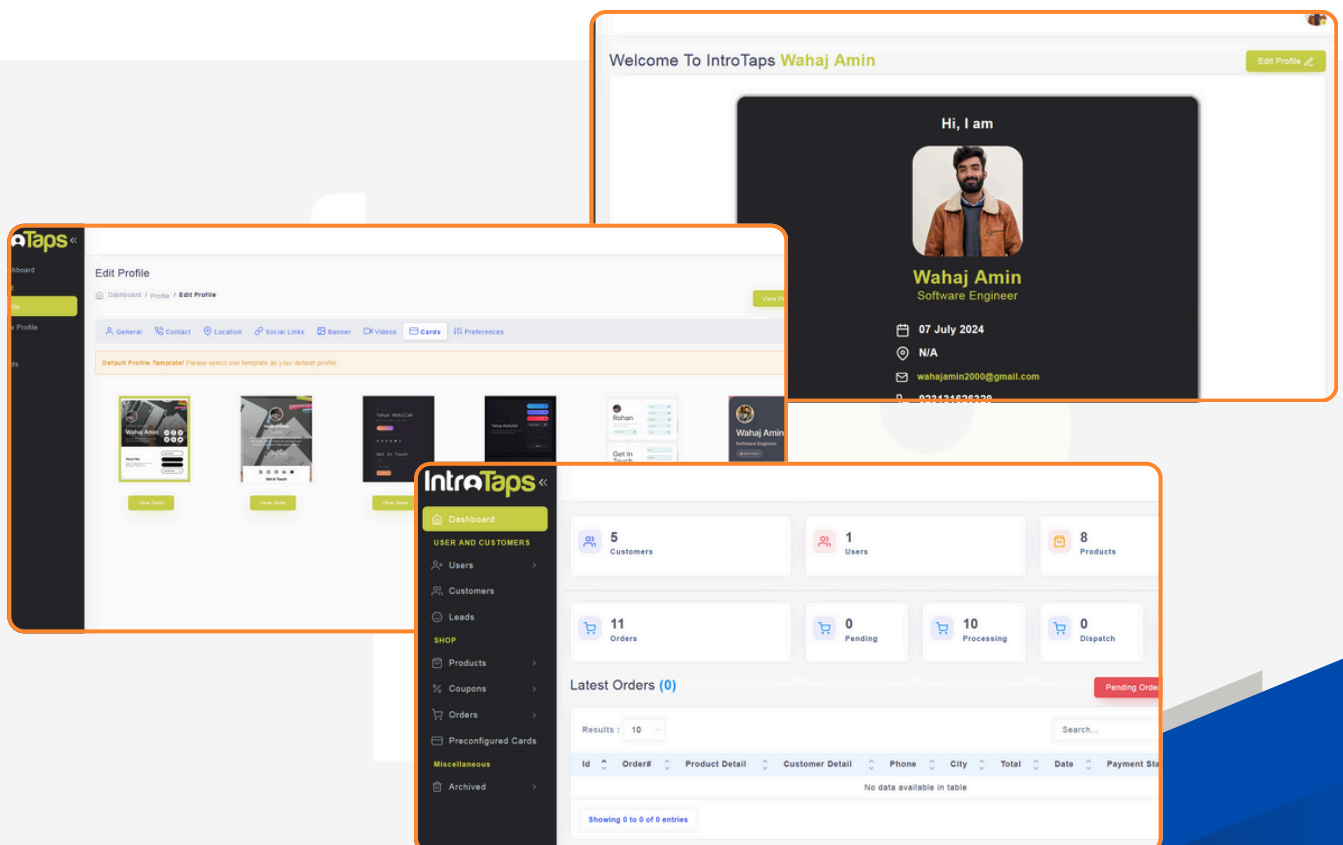

IntroTaps

NFC Digital Business Card System

IntroTaps is an NFC digital business card platform that lets professionals share profiles with a single tap. With three customizable card types, users can display key details, enable contact saving, and even generate leads. Featuring Super Admin and Customer portals, IntroTaps streamlines digital identity management and fosters meaningful connections effortlessly.

FlexiReports

Dynamic Reporting System

FlexiReports is a dynamic reporting system that allows users to create customizable reports with adaptable templates, sections, tables, and auto-generated responses.

It supports exporting in Word and PDF formats and enables downloading images and audio files. FlexiReports streamlines the report creation process, offering flexibility and efficiency for personalized, on-demand reporting.

The image displays two overlapping screenshots of the FlexiReports web application. The background screenshot shows the login page for 'DPO Property Consultancy Chartered Surveyors'. It features a logo at the top, a 'Login' section with fields for 'Email OR Username' and 'Password', a 'Forgot Your Password?' link, and a blue 'Continue' button. The foreground screenshot shows a 'Report' management page. It includes a breadcrumb trail 'HOME > REPORT > ARTHUR BROOKS - 9 WESTBOURNE COURT, STAPLEFORD, NOTTINGHAM NG9 3JX', a 'Reports' button, and a table of reports. The table has columns for Name, Template, Reference, Status, Author, Created By, and Inspection Date. Below the table are sections for 'Edit Report', 'Report References', 'Clone Report', and 'Download Audio Files', each with a corresponding action button.

Name	Template	Reference	Status	Author	Created By	Inspection Date
Arthur Brooks - 9 Westbourne Court, Stapleford, Nottingham NG9 3JX	New Survey Inspection Report (Single Inspection)		Report Draft	Darren O'Neill	Darren O'Neill	14 November, 2024

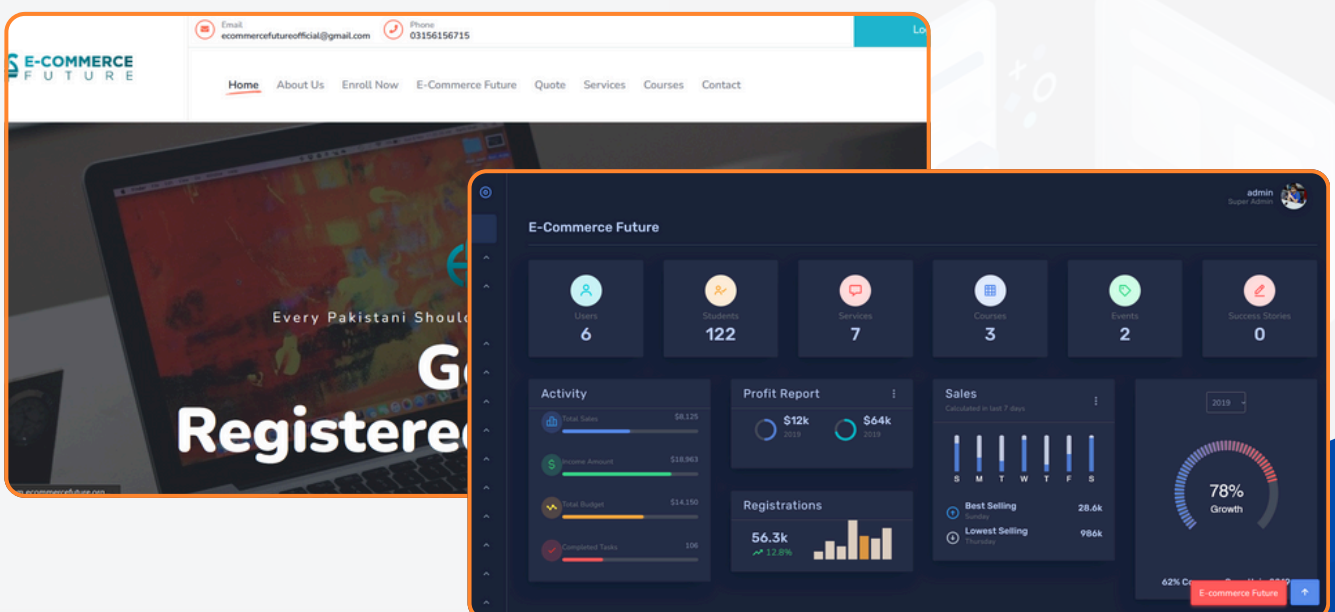

ShopEase

E-commerce Service Platform

ShopEase is a powerful e-commerce platform that offers a seamless shopping experience and full administrative control.

With an intuitive admin panel, businesses can easily manage products, categories, promotions, and user data, ensuring real-time updates and customization. ShopEase helps businesses maintain an engaging online presence while streamlining operations for greater efficiency.

Rankverse

PPC & Amazon Services Agency

Rankverse is a dynamic agency website specializing in PPC and Amazon services to enhance online sales and visibility. The platform showcases expertise in creating targeted ad campaigns and optimizing Amazon listings to help businesses succeed in competitive markets.

With Zapier integration, Rankverse ensures prompt client communication by triggering instant email notifications for form submissions, providing efficient, personalized service from the very first contact.

The screenshot displays two overlapping views of the Rankverse website. The top view shows the 'Our Approach' section titled 'Understanding the Mechanics Of Our Workflow'. It features a diagram with two main columns: 'ONBOARDING' and 'EXECUTION'. The 'ONBOARDING' column lists: Discovery Meeting, Coordination Channel Setup, Comprehensive Account Audit, and Scope of Work. The 'EXECUTION' column lists: Listing Optimization, Strategy Development, Campaign Management, and Data Centric. The bottom view shows the main landing page with the headline 'We Don't Only Manage PPC'. Below the headline, it states: 'We craft tailored strategies that drive real growth. Beyond PPC, we optimize every campaign for maximum impact, helping you turn clicks into loyal customers.' At the bottom of the landing page are two buttons: 'SCHEDULE A MEETING' and 'GET A FREE AUDIT →'.

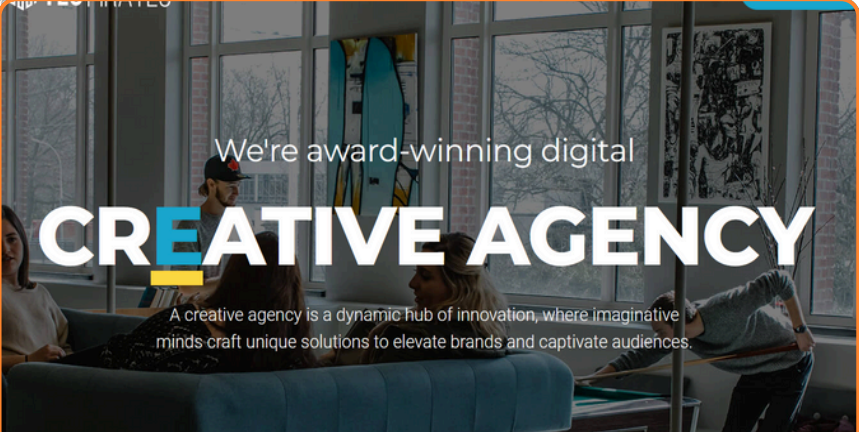

Farosh

E-commerce Solutions Agency

Farosh is a comprehensive e-commerce agency website designed to support businesses on major platforms like Amazon, eBay, Walmart, and more. Offering a full range of services, Farosh provides tailored solutions for product listing optimization, inventory management, advertising, and sales growth.

With expertise across various e-commerce models, Farosh helps businesses thrive by streamlining operations and maximizing product visibility and profitability in competitive marketplaces.

 <p>CONCEPT & IDEA</p> <p>Concepts and ideas are the seeds of innovation, shaping the future by inspiring creativity and problem-solving.</p>	 <p>KEYWORD RESEARCH</p> <p>Keyword research is the foundation of effective SEO (Search Engine Optimization), guiding strategies for improved visibility and traffic.</p>	 <p>USER EXPERIENCE</p> <p>User experience encompasses design and usability, ensuring a seamless and engaging journey for visitors.</p>
 <p>WEB DEVELOPMENT</p> <p>Web development involves coding and designing websites, driving the online presence and functionality of a business.</p>	 <p>BRAND IDENTITY</p> <p>Brand identity defines a company's unique character, including its logo, color palette, and messaging, creating a cohesive visual language.</p>	 <p>We're award-winning digital</p> <h1>CREATIVE AGENCY</h1> <p>A creative agency is a dynamic hub of innovation, where imaginative minds craft unique solutions to elevate brands and captivate audiences.</p>

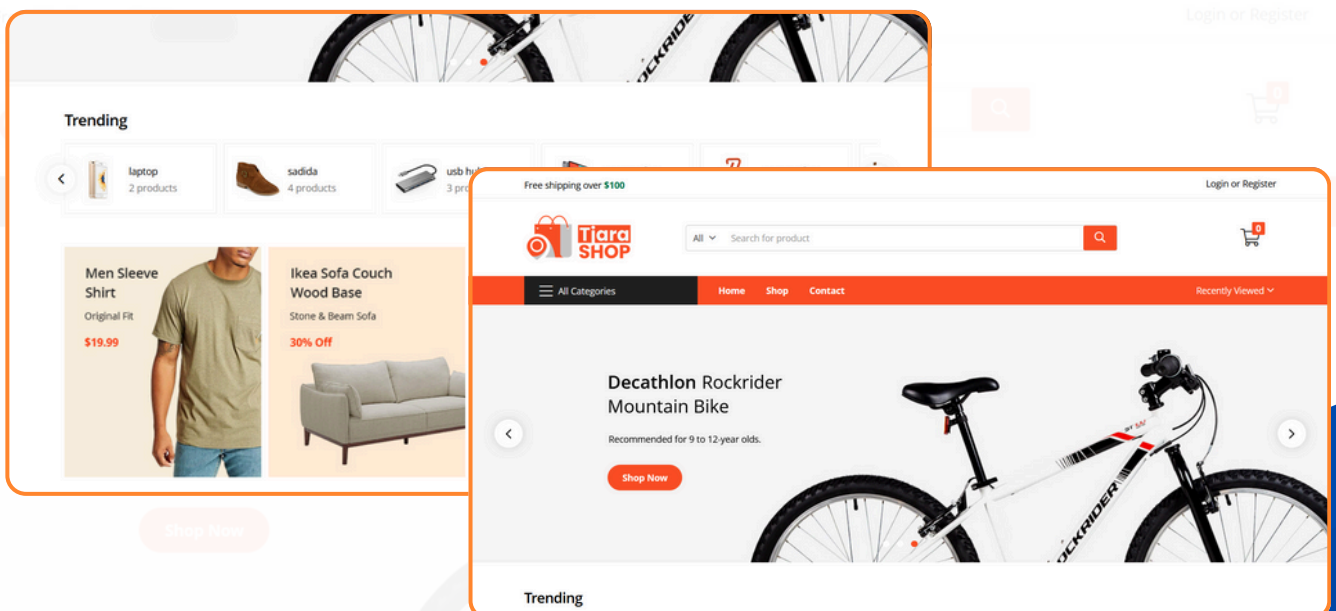

Tjarashop

E-commerce Store for Amazon PL

Tjarashop is a custom-built WordPress e-commerce store designed for a client specializing in private-label products on Amazon. It seamlessly integrates with their Amazon account, allowing easy management of products, orders, and inventory through a user-friendly admin panel.

With efficient product management and order tracking, Tjarashop ensures a smooth experience for both administrators and customers, enabling the client to grow their brand while maintaining full control over the Amazon fulfillment process.

OUR CLIENTS

We take pride in partnering with a diverse range of businesses, from startups to established brands, across various industries.

Our clients trust us to deliver innovative solutions that drive growth, enhance efficiency, and elevate their brand presence.

Explore the successful collaborations that showcase our commitment to excellence and client satisfaction.
